

"I Doubled My Income with Less Work And Contributed to My Client's Health"

By J.C. Taylor, BA, LMT

As a successful body-worker and massage teacher for over 7 years making a "pretty good" income doing massage, I still wondered two years ago, "**How can I make more money to really fulfill my dreams without working more?**" As you know there are only so many treatments a masseuse can give in a week.

In August of 2000, the answer to these questions came into my life and practice. In one and a half years **I have increased my income by \$4,000 per month.** I am still offering quality massage sessions and spending a few extra hours a week on my home business. **I have a residual income for a lifetime.** My income increases monthly. And it is happening easily and naturally. How did it happen?

I started exploring the Amazon Herbs for my own health benefits in April 2000. **I found increased stamina and relief from lower back pain instantly.** Within a few more months I experienced a whole new level of life experience, energy and stability. I told a few clients about the herbs for their health. I shared samples and product information. Clients started ordering. Then friends started ordering, and they told their friends. I wrote a few articles, sent some direct mail pieces and put an ad in a local magazine. My herb business grew. I am amazed at the income potential I now have. And with that comes such freedom. I am doing my bodywork because I WANT to, not because I have to.

In addition this herb business is one I can believe in, as **the harvested herbs contribute significantly the Rainforest preservation.** I am making money and feeling good about it because we are touching the lives of many indigenous peoples and helping to save the Amazon. What a BONUS!

The Amazon Herbs are a wonderful adjunct to any healing practice. With a very simple commission plan, anyone can refer the herbs and earn an extra income. Be your goal \$400 a month or \$7,000 a month, it is possible, and a team of people are available to coach you through the process. **Talented professionals that have found success in the Amazon Herb Company are here to train you and to get you started.** We all benefit.

We all have different reasons for wanting more money - to reach our highest potential, help those we love, and contribute to the causes we believe in. Whatever your reason, I wish you prosperity!
